Services

BCE provides high quality storage and tailored-made services to businesses on a global scale.

With more than 20 years of IT experience, state of the art infrastructure, high level of security and 24/7 customer service, BCE is your best ally for your data strategy.

1st Telecom Hub in Luxembourg

More than 36 local and international telecom operators selected BCE's datacenters, giving to your company limitless access from and to any destination via Internet.

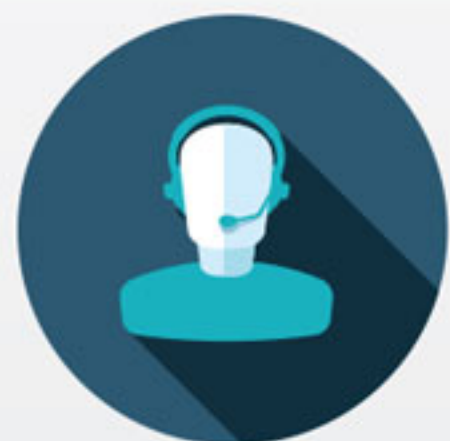

High security

Camera control, 24x7 guards, strict access control policies, smoke detector, fire extinguishing system, fire doors and walls, indoor and outdoor lightning protection system, security operations centre. Your data is safe with BCE.

Luxembourg: a prime European location

With two datacenters in Luxembourg City and in Junglinster. Our customers can access our premises directly from the motorway, airport and railway station (in less than 15 min.). Luxembourg is close to the main european businesses and internet hubs making it an ideally located datacenter.

24/7 service support

BCE's service desk is available 24/7 by phone and email in multiple languages: English, French, German and Luxembourgish. Our team is composed of engineers and technicians specialized in IT who will quickly solve any issues.

High power capacity in an optimised environment

Host your data in our fully redundant datacenters where power uptime is guaranteed up to 99.999%.
